INTRODUCTORY.

The second volume of the Battle Creek, Albion, Marshall and Calhoun County Directory is herewith presented to the public, with the confidence of the publishers that it will be found, upon examination and practical use, to be fully as complete and accurate as any directory of those places previously issued. The first 330 pages are devoted to the Battle Creek Directory, of these 54 pages contain useful miscellaneous information relating to the city, comprising the city government, street and avenue guide, lists of banks, cemeteries, churches, miscellaneous clubs and societies newspapers, railroads, secret societies, steamboat, telephone and telegraph lines, etc. Then follow 276 pages containing an alphabetically arranged directory of Battle Creek. The same plan is followed for the cities and villages of Albion, Marshall, Athens, Bedford, Burlington, Ceresco, Homer and Tekonsha. Pages 517 to 557 contain a Classified Business Directory of the above places, embracing lists of all trades, professions and pursuits, with name and business address compiled and arranged under the heading to which each belongs.

Succeeding the latter portion of the work will be found a complete directory of Calhoun County, containing the names of the farmers and other taxpayers residing therein, with the nature of the business conducted by each, the number of section upon which they reside, the number of acres, assessed valuation, name of township and finally the post-office address of each person.

This latter feature is a valuable improvement upon the previous volume issued by the publishers, and attention is directed to it to show the desire of the publishers to make each succeeding volume an improvement upon its predecessor.

Cordially thanking those who by their patronage have enabled them to produce the present creditable volume, the publishers announce the publication of a third volume in due time.

THE PHELPS TUBULAR WOOD FURNACE

The Furnaces that Dealers should Handle.

RIGHT UP TO DATE.

A SUFFICIENT GUARANTEE:—Can refer to parties all over the State that have used this Furnace for over twenty-five years without repairs.

In the Corunna (Mich.) Public Schools.

CORUNNA, MICH., Mar. 17th, 1887.

This May Certify, That we have used the Phelps Wood-Burning Furnaces manufactured by James L. Dobbins, of Marshall, Michigan, for two years or more, and they are giving good satisfaction. We are getting the most uniform, and the greatest amount of, heat, with the least fuel, from these furnaces than from any furnaces we have ever used; and therefore we take pleasure in recommending them to the public.

CHARLES HOLMAN, C. G. GALE, M. E. GARLAND,
J. D. LELAND, A. T. NICHOLS, D. W. SHATTUCK.

Members of Corunna School Board.

"The Best in the Market"—says a Well-Known Architect.

GRAND RAPIDS, MICH., July 9th, 1888.

J. W. LADD, Merrill, Wis.: *Dear Sir*—Your enquiry at hand in regard to the Phelps Wood-Burning Furnace. I know they are giving universal satisfaction all over this section of the country. They are considered the best in the market. The radiator of the Furnace is the great fuel saver, and almost perfection. I think if you get one of these Wood Furnaces, and have it properly set, you will be happy. The one I have is for coal. Respectfully,

D. S. HOPKINS, *Architect.*

CAUTION.

Pay no money in advance to itinerant Directory Canvassers. We are led to mention this from the fact that certain parties have been fraudulently using our publications as specimens, and by that means collecting moneys in advance. *Before signing an order, see that it has the name of R. L. POLK & CO. printed thereon.* We ask no payment until the work is delivered, and our solicitors have strict orders not to take payment for either advertisements or subscriptions.
